

# CRAIG SCHNEIDER

Chief Technology Officer

## PERSONAL STATEMENT

I am an Intelligent, motivated, and reliable individual who strives for perfection and quality. I feel that being efficient as well as organized is important and strive to achieve this in everything I do. I enjoy learning new things, meeting new people, experiencing new places, and generally being involved in new concepts and ideas. I have an unusual ability to reverse engineer almost anything I can attack with tools and have found this to be the most successful way for me to learn. I am happiest within a team of equally motivated people, and due to my age and experience, tend to take a leadership role in these environments.

### **2009 – 2015      Founder and Managing Director** *Full Spectrum Communications Pty Ltd*

#### **Communications Installation Contractor** *Self-employed*

Self-employed as Communications Installation Contractor Installing Satellite Dishes, Antennas and other communications equipment and associated cabling in, on, and around residential, commercial, and government buildings. I lead a hand selected team of highly trained, experienced, and professional technicians plus trainees to achieve a high level of teamwork, professionalism, and efficiency so that as a team we can complete installations within set deadlines to win contracts and increase profit from those contracts. As individuals we are subjected daily to Heights, Confined spaces, High voltage electricity, Insects and snakes, aggressive dogs, extreme heat, and

long days. As a general rule to be successful at this job you have to be fit, healthy, and mentally resilient. As the successful manager of this business I have also had to develop the ability to balance personal and professional life, accommodate long hours with little time for personal pursuits, calm assertiveness, and above all the ability to lead by example. In addition to these traits my role included all other parts of running a business such as:

- Payroll
- Taxation
- Superannuation contributions
- BAS and quarterly statements
- Team building and morale management
- Conflict resolution
- Business image and direction
- Marketing and Advertising
- Profit/Loss Management
- Risk Assessment Management
- WHS risk assessment and management
- Investments and portfolio Management

**2007 – 2009:** Brindley Park Feedlot Roma. Stockman and Feed crew Leading Hand/WH&S Supervisor.

Here I worked on a 10 day on 4 day off shift. As a stockman I was required to work within a team to manage all aspects of cattle handling on a 40,000 head feedlot. The feedlot ran 365 days a year and all staff were required to work weekends and public holidays. Duties Included

- General Horsemanship
- Operating motorbikes
- Identifying and separating sick and injured cattle
- Diagnosing and administering treatment to sick cattle and horses
- General Stock work
- Fencing
- WHS risk assessment and management (Supervisor)

As Leading Hand on the feed crew, I led a team of between 5 and 12 people of varied ages to feed up to 40,000 head of cattle using a variety of machinery, and equipment.

- Operation of Milling and grain production equipment
- Driving and operating Left hand drive 10 tonne capacity feed trucks
- WH&S risk assessment and management (Supervisor)

**2006 – 2007:** Station Hand - Stockade Station. Duties Included.

- General Horsemanship
- Mustering
- Identifying and separating sick and injured cattle
- Diagnosing and administering treatment to sick Cattle and horses
- General Stock work (Cattle)
- Machinery Operation (Tractor, bulldozer, Front End Loader, & Grader)
- Fencing
- Welding and engineering
- Machinery and vehicle maintenance and repair
- Dam construction
- Forest regrowth control
- Noxious weed control
- OH&S risk assessment and management

**2005 - 2006:** Computer, printer, and photocopier technician for Rufin Computer Services. Duties Included.

- Computer and Laptop Repairs (Hardware & Software)
- Photocopier and Printer Installation, repairs, and maintenance
- Software and website development
- Customer training on basic computer usage
- Customer service
- Network Server design and Installation
- Network communications installation and management

**2004 - 2005:** Caretaker/Bar Person/OH&S Supervisor – Wilcannia Golf Club. I was also Club Captain to the board of Directors. Duties Included.

- Responsible service of gambling and alcohol
- Cleaning duties
- Golf and Bowling Green Maintenance
- General repairs
- OH&S risk assessment and management
- Organising and implementing community sporting events

**2004 – 2006:** Administration Officer for Debt Collections/IT Support /Network Administrator/OH&S Supervisor (Local Government). Duties Included.

- Sundry debt and Rate collection.
- Following current privacy and confidentiality policies
- Working with local legal departments and debt collection and consolidation agencies
- Spreadsheet and database design, development, and management
- Network and user management, maintenance, upgrades and repairs
- IT Training and Support
- OH&S risk assessment and management

**2002 – 2004:** Chief IT Technician for Outback Telecentres Networked Incorporated.

My role here was to lead a team travelling to extremely remote Australian communities to design and implement basic satellite and DSL internet and video conferencing access hubs or 'telecentres' and training local community members in the usage of those access points. Duties Included.

- Installation of Video Conference Equipment
- Photocopier and Printer Installation, repairs, and maintenance
- Software and website development
- Customer training on basic computer usage
- Computer design and production
- Transporting of equipment and tools to remote Australian Communities
- Satellite and DSL Internet installation
